# **CODING + REIMBURSEMENT TOOLKIT**

# CODING + REIMBURSEMENT TOOLKIT

## Streamlining Your Coding and Reimbursement for CS-131 GammaTile®

To facilitate the seamless integration of GammaTile into clinical practice, it is essential that providers and billing staff understand the appropriate reimbursement pathways, coding guidelines, and billing processes. Accurate coding and billing are critical for securing timely and appropriate reimbursement for GammaTile-related procedures.

To support this process, a comprehensive Coding and Reimbursement Toolkit has been developed. This toolkit includes valuable resources such as billing guidance, relevant ICD-10 procedure and diagnosis codes, CPT codes, payer-specific insights, and sample clinical documentation to support billing accuracy. By leveraging this toolkit, healthcare providers can streamline administrative processes, reduce billing errors, and optimize reimbursement for GammaTile Therapy.

### INSTRUCTIONS

Download the individual sections of the Coding and Reimbursement Toolkit using the link below. The included guides and templates—covering topics such as procedure and diagnosis coding, billing workflows, prior authorization support, and sample documentation—should be carefully reviewed and customized as needed. Any highlighted sections within the templates should be updated with site-specific information to ensure accuracy and alignment with your facility's billing practices.

GammaTile® is indicated as a treatment for patients with newly diagnosed malignant intracranial neoplasms and patients with recurrent intracranial neoplasms. The potential for, and symptoms of, adverse events related to radiation exposure vary depending on the radiosensitivity of the exposed tissue, the amount of radiation delivered, and the placement of GammaTile(s). GammaTile should not be used for patients with a known history of hypersensitivity to bovine-derived materials. More information on indications, contraindications, warnings, and instructions for use can be found in the GammaTile Instructions for Use.

**CAUTION:** The law restricts these devices to sale by or on the order of a physician.
